

Project Manager – Nearshore Survey

Are you a bright and ambitious individual with a passion for survey, an eye for detail and an ability to coordinate multi-functional teams?

Titan Environmental Surveys, as part of The Gardline Group, are a market leading marine survey contractor, specialising in nearshore Hydrographic, Geophysical, UXO, Environmental and Met Ocean surveys.

For the right candidate, an exciting opportunity has arisen to join the projects team at Titan. As a Project Manager, you will play a pivotal role in helping us expand our nearshore survey capability as we continue on our path as the survey contractor of choice.

Job brief

- Review, understand and communicate the requirements of an assigned project, defining clear objectives to meet expectations.
- Plan and coordinate the appropriate use of internal and external resources, to design and execute the project plan in accordance with project specifications.
- Support the project field team with mobilisations, and provide support as required throughout the project.
- Fulfil project reporting, administrative and logistical aspects of survey management in co-operation with the Operations Management team.
- Coordinate project wash-up meetings, and delegate improvement plans as required.
- Contractor management of third party services and provide seamless integration into Titan's operations.
- Support technical and commercial functions in the development of our survey capability.
- Adhere to, promote, and advance company QA and HSE processes, practices and systems.

Essential Skills/Experience:

- Relevant industry experience (marine survey, offshore, offshore wind or subsea cables) in a similar project management role
- Be proficient in managing projects at an operational level with strong attention to detail, be well organised and able to plan time effectively
- Feed into the company's strong team ethic, with a can-do attitude, while able to build strong working relationships between multi-disciplined functions and varied client base.
- Have a focused and pragmatic approach, relishing the pressure of deadlines and willing to take ownership and make decisions.
- You will be curious, and willing to challenge the status quo, with the ability to identify and implementing solutions.

Titan Environmental Surveys Limited is part of the Gardline Group of Companies
